The credit company files revealed a report dated January 29, 1936, on Subject, indicating he is the son and heir of the late GEORGE F. GETTY, who left more than twenty-five million dollars. It further revealed that GETTY has kept the oil business, left to him by his father, in excellent shape financially, and has ample financial reserves for his requirements.

At the newspaper morgue it was learned that GETTY graduated from the University of California and Oxford University. In another article, dated September 11, 1935, it showed that GETTY had offered for sale his yacht, "The Warrior," built in 1934 at a cost of one million four hundred thousand dollars Another article, dated November 23, 1939, under a New York date line, indicated that GETTY had returned to New York from Italy on that date on the SS "CONTI DI SAVOIA" after negotiating with Soviet Russian buyers in Berlin, Germany, for the sale of one million barrels of California oil to be used in Siberia, GETTY stating that it would cost less to transport oil from California to Vladivostak than from the Russian owned Baku oil fields. Another article indicated that GETTY married September 14, 1939, in Rome at the American Consulate.

GETTY was born at Minneapolis, Minnesota, December 15, 1892 His father, GEORGE FRANKLIN GETTY, is alleged to have been born in Maryland GETTY was issued passports in 1920, 1926, 1928, 1932, and 1936. His last passport, No 284,603, was issued on May 15, 1936, upon Application executed at the Department the same day He stated that he desired to visit Germany, France, and England for pleasure. At that time he gave his address as 809 Otter Rock Drive, Greenwich, Connecticut (It should be noted that investigation in Greenwich failed to disclose any record of GETTY'S having lived there.)

It was ascertained from a confidential source that GETTY maintains two accounts with the Security Office of the Security-First National Bank of Los Angeles, California Informant advised that one account is a personal account which has an average balance of approximately \$80,000.00, and the other is a trustee account which has an average balance of approximately \$95,000 00 Informant is unable to ascertain the distinction between the two accounts

Observation of the canceled checks paid against these accounts, during March, 1941, failed to disclose that any of the checks had been signed by GETTY, but were signed by persons believed to be office employees. He further advised that he had been unable to find that any of the disbursements from these two accounts were of interest, they being mostly alimony payments to his various ex-wives.

Informant further advised that he had ascertained from the records
of the bank that on January 28, 19/1, an American Ryproce Company latter to
create, No 93/35. In the amount of \$10.000.00 had been formended to decome

Information obtained from and an English Subject, disclosed that he was very friendly with while she was in Hollywood, and told him of in Europe, but because the German Government forced her to be intimate with anyone they directed in the official circles, she decided to get out of the country, and under the pretext that she was going to in France, went to Paris. She told that she had met all the high officials in Germany from HITLER down. questioned her further at various times with relation to her ability to get out of Germany so easily, but she was unable to answer these questions satisfactorily.
learned that had received a pay check from at San Francisco, and when he confronted with this, she did not deny nor affirm it. After being in her company for approximately two months, accused her of being a German spy and in the pay of the German Government, and when she did not deny it, he told her he would have nothing more to do with her.
According to another source of information. it was learned from who has been reported as a friend of that came to this country financially broke, and that after her arrival, she took up with who later wanted to marry her, but she would not consent CETTY is a friend of and after her affair with she took up with GETTY. From a confidential informant, the following information was obtained on April 22, 1941
PAUL GETTY is now in Los Angeles, is the owner of the Pierre Hotel, 5th Avenue and 61st Street, NewYork City, which, it is stated, is a veritable nest of intrigue for numerous German agents working in the United States. The Pierre Hotel is by who is said to be an Also active in the management of this hotel is formerly of the German Military Service, and who has been a of Subject's for a number of years About January, 1940, informant was engaged in business dealings with Subject, which was shortly after the start of the war in Europe. Subject was very outspoken and frank in his

sympathy for Germany and for the ideology of Nazism. It was also stated that Subject has a German girl, now living in Germany, with whom Subject lives as husband and wife when Subject is in Germany, and that Subject has two children living in Germany as a result of this relationship. During a very frank discussion, Subject stated that he frequently associated socially with and on numerous occasions during Subject's various periods of living in Germany, he had met and associated a number of times with HITLER.
In a letter from the Bureau, dated August 15, 1941, is set out information received from an outside highly confidential source, stating that the information apparently originates from a source close to the Subject. According to the data received, it was denied that Subject controls "Tidewater" which may possibly refer to the Tidewater Oil Company, and it was also denied that Subject ships oil to Germany, Spain, Russia, and Japan. It was further denied that he was given a tie by HITLER, and that he announced the sale of a million barrels of oil to Russia According to the data received, GETTY allegedly said that he was thinking of this deal. It was also denied that he was ever involved in the Mexican presidential election, and that he has never been acquainted with and LANG, who was described as an efficiency expert. (It should be noted that the writer interviewed Captain LANG, who states that he has been intimately associated with Subject as Captain of his yacht "The Warrior")
It was learned in August, 1961, that GETTY was very friendly with who is alleged to be a pro-Nazi, attempting to form a Fascist movement in the United States
It was learned from
who is the former
Subject of instant case that
GETTY traveled to Germany once or twice a year, but she wasunable to name anyone
with whom GETTY was in contact in Germany
It should be noted that was interviewed by the writer, and is not on irlendly terms with Subject, in view of the fact that the Subject promised him several years ago to bring him to America, send him to school, and bring him into his organization as an officer stated that Subject has failed to keep his promise, and is at present working in the orleans a labeled to keep his promise, and is at
present working in the oil fields as a laborer for a very small salary.
Subject's wife, but now divorced from him, professes no love for the Subject She advised that she divorced him several years after marrying him, when she learned that he had lied about his past activities, stating that he told her he had never been married, but she found out later he had been and was the father of three children.

and when she requested GETTY'S and to enter a plea with the German high officials, he refused, stating that he did not know anyone to contact. During a conversation with the Subject in 1939, GETTY bragged about informing the German Army of a way to break through the Maginot Line, but she does not know, whether this is the truth

opinion that GETTY was too weak an individual to be involved in anything which would be inimical to the best interests of the United States. She advised that CETTY is wealthy enough to associate with the high officials of every country in the world, but merely for business reasons, and would not, in her opinion, be involved in anything regarding political interests of the United States. She further advised that GETTY was in Mexico from November, 1940, until March or April, 1941, at which time he was interested in buying property in Acapulco, and that he had obtained options on property there but would not buy outright unless the Mexican administration would pave a road through Acapulco. After working for several months on this scheme, she related how GETTY became discouraged and returned to the United States.

Captain FREDERICK LANGE, 1312 South Poinsettia, Compton, California, advised that he was Captain of a yacht which GETTY purchased in 1930, which was the first time he came into GETTY'S employ. Later LANGE reports GETTY sold this yacht, and during the time GETTI was without a boat, LANGE worked in the Production Department of the Getty Oil Company LANGE continued that in 1933 GETTY purchased the yacht "The Varrior," and three years later, in November, 1936, GETTY sold this yacht to a French financier. At this time LANGE took the "Warrior" to France, and after it was thoroughly examined by the French financier, agreed to buy it, and Captain LANGE telephonically contacted GETTY, who was in Germany in attendance at the Olympic Games

LANGE stated that he was aware of the rumor circulating about the Hotel Pierre regarding GETTY'S obtaining a necktie from HITLER for favors rendered, but LANGE states that on several occasions he has heard GETTY deny that he has met HITLER LANGE, stated that he has never been in GETTY'S presence when GETTY discussed any love for Germany or HITLER, with the exception of HITLER'S effectiveness in maintaining discipline in ruling Germany and her Armies LANGE at present states he is no longer in the employ of GETTY, inasmuch as he was dismissed from his employ in 1940 and has been working in the California Ship-yards in the Regulation Department since

From an item appearing in the local newspaper, it was learned that GETIY has been the new President of the Spartan Aircraft Company, Tulsa, Oklahoma, since February, 1942. It should be noted that a Memorandum with reference to the investigation on instant file was submitted to the Department

and in a Memorandum to the Director, dated April 8, 1942, making a reference to this memorandum, the following information was set out by WENDELL BERGE, Assistant Attorney General:

A review of the material submitted indicates that the allegations of a rather sensational nature have been made against this Subject. If these allegations, or some of them, are true, the Subject is a person extremely dangerous to the safety of this country. well as AR GETTY'S, upon being hired.

MM GETTY expanded at length relative to his desire to male good in this new effort, and said that the reason he ented this job was because he wanted to do something during the national energoncy for this country, that he realized in his previous life he had had been little practical experience, but that he was working doubly hard in an effort to take a success of this job. He stated that he purposely refraired from taking an ective part in the circetion of the plant because he realized he lacked information and ability to advise department heads how to run their business in the annufacture of amplenes.

MR GETTY also admitted when questioned that he had about \$4,000 in Rucckwanderer parks, that these were purchased from the Chase National Bank of New York, and were in their custody at the present time, that his only purpose for having purchased these marks was that prior to his departure for Europe in 1936 he had his business agent purchase a large amount of those because these tourist marks could be bought in America at a discount of about 30 per cent. He stated that the only reason he had those left was because he did not spend as much time in Germany as he anticipated. MP. GETTY did not remember the exact amount, but said he would be very glad to get in touch with the Chase National Bank of New Yorl for any further information the government might desire relative to this matter.

Upon concluding the interview MR GETTY assured the writer that he was very grateful to the Bureau for having interviewed him and given him a change to close some of the accusations which had been made. He invited the inspection and scruting of the Federal Bureau of Investigation at the Spartan Aircraft plant at any time, and assured his fullest cooper tion in anything he could do to aid national defense.

Wher questioned relative to his personal acquaintanceship with Messrs hITLER, he replied that he had never not any of the three, that he had never publicly expressed himself as being in favor of the things these on stood for prit to the var and containly not since the var, and had not intimated to anyone that he was friendly with these people. He further related that the story had been circulated he had received a necktic from HITLER, and that this story went so far as to appear in a column in the New York Dully Mirror, which article was very unjust and unfair to him and certainly vithout foundation, as he had not received a necktic from HITLER, had no reason to and in no way had

Dear Siri

Reference is made to Bureau letter dated July 16, 1942 wherein you were furnished with a report from the War Department and requested to give this matter immediate attention due to the interest displayed by the Army.

For your information, I am transmitting herewith copies of a case history concerning the Spartan Aircraft Company of Tulsa, Oklahoma, dated August b, 1942, which was submitted by the Mavy Department at Washington, D. C. (%)

It is requested that the Oklahoms Field Division place this matter in line for investigation in the near future in view of detty's present position with the Spartan Aircraft Company where he may obtain information of a vital nature.

Dear Sir:

Inasmuch as all leads in the Los Angeles Field Division office with reference to the Subject of instant case have been exhausted and in view of the fact that the Subject is now president of the Spartan Aircraft Company in Tulsa, Oklahoma, and has taken up residence there, the Bureau is hereby requested to change the office of origin from Los Angeles to Oklahoma City.

It should be noted that a lead was set out in the report of Special Agent EDWARD A. FURBUSH, JR., dated July 21, 1942, at Los Angeles, California, to develop information if possible from the Subject's wife, who contemplated a visit with her cousin now residing in Los Angeles, California, but information from the Oklahoma City Field Division indicates that Subject's wife is now living with him since her return from Italy and she does not contemplate a visit with her relative in Los Angeles, California.

Very truly yours,

Reference is made to the Los Angeles Field letter dated October 3, 1942, wherein it is stated that all leads in that office have been exhausted and in view of the fact that the subject is now residing in the territory covered by the Oklahoma City Field Division, the Office of Origin should be changed from Los Angeles to Oklahoma City.

Your attention is directed to the report of Special Agent Edward A. Furbush, Jr., dated July 21, 1942 at Los Angeles, which sets forth leads for the Los Angeles Pield Division which apparently have not been covered. It is noted that investigation is outstanding to contact of the George P. Getty Dil Company, Arcade Building, so that he may be interviewed regarding his knowledge of Setty's activities. It is also reflected that contact would be arranged with Source of Information Library pretext, for information pertaining to subject a activities, both in the United States and Mexico. (IU)

SLIP (S) OF CLAS The investigation of Getty was initiated in the summer of 1940 when it was believed that German and Italian agents were operating the Pierre Hotel at New York City and many foreign agents were residing at that place. It was stated that Getty had purchased the Pierre Hotel for approximately \$2,000,000 and that he had fired the original personnel, supplanting them with persons of questionable · tendencies.

> Since that time, allegations have been made that Getty is pro-Nazi and has received gifts from Hitler. It has also been alleged that he was acquainted with Getty, who is in the oil business, also boasted, according to reports, that he had shipped many thousands of barrels of oil to Japan prior to the Neutrality Act. Suspicion was also cast upon Getty due to his association with who is reported to be a Nazi spy.

Recently interviews have been had with prominent individuals associated with Getty. Although they claim he is eccentric and a man who has met many influential Europeans in his time, they do not believe he is engaged in espionage activities.

At one time an article appeared in a New York newspaper which indicated that Getty's sympathies were with the German cause and in this connection you will recall that Walter Winchell wrote a letter to Mr. Hoover in which he indicated that Getty was a loyal American citizen but because of his standing could not afford to publicly deny any allegations made against him.

Getty has been interviewed by the Bureau and has denied any 1 Wallegations which would tend to show that he is engaged in espionage wactivities.

Attached hereto is a comprehensive and complete memorandum setting forth the background and activities of Getty which do not BUY CECORDED: UNITED STATES AVINGS ND STAMP

New York from Italy after negotiating with Soviet Russia buyers in Berlin, Germany, for the sale of one million barrels of California oil to be used in Siberia. It was alleged that Getty was able to consummate this deal due to the fact that he had convinced the Russians that it would cost less to transport oil from California to Vladivostok than from the Russian-owned Vaku oil fields.

In connection with Frederich Lange, it might be said that a Frederich Lange, who was captain on the steam yacht "Blue Water", committed an assault on February 25, 1937 upon the chef of that vessel and as a result stood trial at New Orleans, Louisiana, on April 2, 1937, at which time the court, without the benefit of a jury, rendered a verdict of not guilty.

By letter dated July 21, 1941, Walter Winchell advised that the article carried in the Daily News at New York City was inaccurate. He stated that Getty was educated in California and at Oxford, not in Germany. Further, that he did not hold any German patents through holding corporations and does not ship oil to Germany, Spain, Russia, or Japan. It should be noted that the article carried by the New York Daily News alleged that Getty had his portrait painted, at which time he was wearing a tie presented to him by Adolf Hitler. Winchell said that he never was given a tie by Hitler and never did announce the sale of one million barrels of oil to Russia. He also stated that Getty never did know Lange, the efficiency expert. According to Winchell, what Getty cannot do is sue a newspaper since he is a wealthy man and would not have a chance to collect damages. Further, that the trouble with Getty is the fact that he does not realize stories like that carried in the Daily News hurt his business and adds, "I have been trying to impress him with that fact."

On July 24, 1940, advised the New York Field Division that he was the of the William Allen White Committee, New York City. He stated that Getty, who is the owner of the Hotel Pierre, was a very loyal American with pro-Nazi sympathies. He alleged that Getty had been in Germany where he was apparently very popular with the more important Nazi officials. Further, that he was present at the "Cellar Trials" after the Reichstag fires. He claimed that Getty was a large minority stockholder in the Tidewater Oil Company, which sold one million barrels of oil to the Soviet Government some time ago.

Getty was interviewed by an agent of the Oklahoma City Field Office on August 28, 1942, at which time he stated that he was aware that various individuals had accused him of possessing pro-Nazi tendencies and that he had also been the victim of some newspaper publicity unsupported by facts, being merely based on the fact that he had lived a life of ease and had associated with a number of people who at the time were harmless but since the war might be thought otherwise. He stated that he did not have anything to do directly with the Pierre Hotel in New York City, but it was owned and operated by the Getty Realty Company of Newark, New Jersey, which was organized by his father and which operates the estate left to him. He maintained that he had nothing to

do with the hiring and firing of the personnel of this hotel.

With regard to the check in the amount of \$60.16 which was received by Getty in 1939, Getty stated that this check represented a refund on a ticket following his return to the United States in November, 1939. Getty admitted his association with but denied that he knew her prior to his return to America and that his only interest in her was she was a beautiful woman, a good dancer and good companion. He did admit, however, that he advanced her money which totaled \$5,000 when she was having a hard time Getty had the personnel manager of the Spartan Aircraft Corporation submit a list of the changes in personnel since Getty became President of the organization. It was learned that each change was made for the benefit of the company and was authorized by Getty admitted he had an interview with Washington in an effort to secure a commission in the United States Navy and that when learned he had an interest in the Spartan Aircraft Corporation, it was suggested by that he could serve this country in a useful capacity if he would help improve production at Spartin which, according to Getty, had previously not done so well. Getty admitted he purchased approximately \$4,000 in Rueckwanderer marks from the Chase National Bank of New York. He stated that his only purpose in making this purchase was that prior to his departure for Europe in 1939, tourist marks could be bought in America at a discount of about 30% and that the reason these were left was due to the fact he had not spent as much time in Germany as he had anticipated. Getty denied having ever met Hitler, stated he had never publicly expressed himself as being in favor of the things they stand for, or has he ever intimated to anyone that he was friendly with those individuals. The story that he received a necktie from Hitler was unjust and unfair according to Getty, inasmuch as no gift had ever been offered to him by Hitler.
